Re: Car (sedans) usage by district employees

Dear Chris,

WEE again need more information. It was called to our attention by board member Tim Rollins at the last board meeting, (5-12-15) that there are 80 vehicles used throughout the district that are taken home. We are not looking for service/delivery vans or work trucks.

We would like to know:

- Who each vehicle is assigned to?
- Make, model, year of each car?
- Cost of the vehicle to the district?
- Why they are being used and taken home?
- Insurance cost of the vehicle?
- All expenses related to each vehicle including mileage and maintenance?

Sincerely yours,
Mary Jo Powers, WEE
