

The Improvement & Innovation Department, in collaboration with community partners, offers a fun-filled summer program that gives RPS 205 students in grades Kindergarten – 12th an opportunity to perform, understand, learn, explore, discover and experience a variety of multisensory activities. These programs focus study on targeted topics outside of what might be offered during the traditional school day.

These non-credit programs are free and are led by RPS 205 teachers. Bussing is available for those who qualify. If you would like to receive a detailed guide about each of the programs, please fill out the information below, and select the program (s) that best meet your student’s needs.

Student Name: _____ Student ID#: _____

Current School: _____ Current Grade: _____

Parent/Legal Guardian Name: _____
