

## College Entrance Exam Scores on Student Transcripts

---

Universities, Community College, and other post-secondary institutions often use college entrance exams such as the ACT or SAT to make a determination regarding acceptance of an applicant. An official score through ACT and/or SAT is often a requirement for acceptance and enrollment and the inclusion of their score on a transcript will not meet this requirement; but may be considered by some admissions teams in the decision making process at a post-secondary institution.

Any college entrance exam taken through Rockford Public Schools will be recorded in our student information system and with your consent; the score will be added to your student's official transcript.

*By signing below, I consent to including my child's college entrance exam (ACT and/or SAT) scores on their official Rockford Public Schools transcript.*
