Speech Assignment  
Presentation - Persuasive

**Directions:**

1. Read all of these directions before beginning this assignment.
2. Continue to practice your speech, before the day you present in class.
3. When it is your turn to present, you must give the teacher your notebook, with your research notes, outline, first and final drafts of your written speech, and works cited page in it, before you speak. Please have it opened to your final draft.
4. During your speech, you must use only your notecards (not your written speech) and refer to your visual aid. Because this is a persuasive speech, you must quote your sources during your speech, just as you did in your written speech.
5. You will present your speech to the class, using the elements of giving a good speech previously discussed in class. These include tone, eye contact, body language, etc.
6. When you have concluded your speech, you will offer a brief question and answer session to your audience. You may take up to a maximum of 5 questions.
7. Collect your materials from Ms. D. after your presentation.
8. Mark the date on which you completed this assignment on your work plan.
9. You do not need to turn in your notebook, visual aid, or notecards as these have already been graded.
