

Graphing Linear Inequalities Day 2 GP

Create a table that summarizes how to graph inequalities.

1)

Graph the inequalities.

2) $x + 2y > -4$
 $3x + y \geq 3$

3) $x - 2y < -6$
 $x + 2y \geq 2$

4) $x - 3y > 6$
 $4x + 3y \geq 9$

5) $2x + y < -3$
 $2x - y \leq -1$
